## We suggest

### STAFF RECOMMENDATIONS: BOOKS THAT SPARK INNOVATION

#### *A Wrinkle in Time* by Madeleine L'Engle

One-part sci-fi series, one-part fantasy, L'Engle's book doesn't get bogged down in realistic science but instead celebrates the values that allow science to flourish. While I prefer reading the original book, there is also a graphic novel!

— Amy Carroll, adult/teen programming coordinator

#### *Feast by Firelight* by Emma Frisch

Part of the allure of camping is self-sufficiency. To me, roughing it is for the underprepared. This book features as much to consider before you venture out as it does recipes for while you're out. Chew on how to build your fire (engineering), keep it burning (physics), use your tools (technology), add your ingredients (math), and allow it to affect your senses (art).

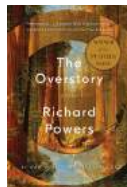

— Craig Branch, adult/teen services programmer, Carrico/Fort Thomas Branch

#### *Night Walk to the Sea* by Deborah Wiles, illustrated by Daniel Miyares

This picture book is a great introduction to environmental science and Rachel Carson, a notable conservationist. It is heartfelt and inspiring for little nature lovers.

— Katherine Sallee, children's services programmer, Alexandria Branch

#### *The Overstory* by Richard Powers

It's a series of stories about people from across the world that are connected by trees. As the stories start to connect and the consequences of the character's actions begin to unfold, the ending unfurls into chaos. The science that underpins the story is both fascinating and heartbreaking. You certainly won't look at the ginkgo tree in front of the Cold Spring Branch the same way again.

— Leah Byars, collection services assistant

## Read to Win on Beanstack

Stack your to-be-read books high this March for our STEAM Month reading challenge. Mark each STEAM-related book read on our Beanstack app. Receive one entry per category — Science, Technology,

Engineering, Art and Math — for the chance to win two tickets to the Cincinnati Museum Center. Participants can earn a total of five entries.

If you need help finding titles, check out our recommendations above. You can also ask our librarians or browse our collection.

All ages can participate in the reading challenge. Learn how to sign up for the challenge at [www.cc-pl.org/beanstack](http://www.cc-pl.org/beanstack).

## STEAM Month, *continued from the cover*

Discover the secrets of a 2,000-year-old mummy, create DIY circuits and try your hand at Shakespearean stage combat during STEAM Month. Whether you love Science, Technology, Engineering, Art or Math, the library has fun and informative programs for all interests.

When you're not hitting the books for our STEAM reading challenge, spend STEAM Month at your favorite branch exploring, crafting, learning, reading and more.

At the Carrico/Fort Thomas Branch, teens can solve clues to build the perfect cake in an Ultimate Bake-Off Escape Room on March 11. Children can also take to the kitchen during Food Science on March 7 by using milk to create colorful art or celebrate the change of seasons at Spring into Science on March 28.

Teens can construct their own mini foosball table for on-the-go competition at the Newport Branch on March 10. Adults can also flex their construction know-how via The Great Builder Challenge on March 21. Whether you complete activities alone or in groups, the challenge is sure to put your physics skills to the test. Children can get in on the engineering fun by creating robot hands at Alphabet Kids Homeschool's March 9 program.

Give your gaming set-up a makeover at DIY Dungeons and Dragons Camp on March 9. Or learn the way of the (fake) sword at the aforementioned Stage Combat with Kentucky Shakespeare program on March 21 for teens. Ever wondered how to make a circuit board just like the ones found inside televisions, radios and more? Children can do just that on March 24.

And if your kids are still looking for engineering fun, Alexandria is hosting

a STEAM Lego Challenge on March 16 for grades 1-5. Keep your home tidy and eco-friendly by learning tips and tricks at DIY Green Cleaning on March 18. And on March 24, teens can join Dr. Guy, an associate professor of biochemistry at Northern Kentucky University, to learn about chemistry—and have fun while doing it.

Check out more details in this newsletter or visit [www.cc-pl.org/steam-month](http://www.cc-pl.org/steam-month) for a full list of programs and activities.

## Signature Series: Meet Umi

Umi, a 2,000-year-old mummified Egyptian boy, revealed some of his secrets right here in Campbell County. In partnership with the Cincinnati Museum Center, researchers from Northern Kentucky University's Allied Health Department used X-Rays and a CT

scanner to create a 3-D image of Umi, who was aged 3-5 at the time of death. Learn about their discoveries from members of the department in this installment of our Signature Series.

The event takes place at 7 pm Friday, March 25 at our Carrico/Fort Thomas Branch, which closes early at 5 pm to set up for the program. Request your free tickets at [www.cc-pl.org/signature-series](http://www.cc-pl.org/signature-series).

# Play N Read

Build your child's literacy skills with our new K-2 Play N Read bags. Stored in clear, yellow backpacks, the bags feature beginner reader books alongside themed games and toys. While the library has bags for preschoolers, these kits focus on strengthening kindergarten-2nd grade school skills. Cards with tips and tricks for parents and caregivers are also included, which aid in helping children learn to read.

There are also new bags available for children and families with visual impairment. With accessibility in mind, these kits include books and toys with elements such as high-contrast visuals, large type, texture and audio. These items are meant to enhance the reading experience while helping develop early literacy skills. Twenty of these kits include Wonderbooks, which feature a built-in audiobook and an interactive learning mode.

You can find the bags in the children's section of our branches or by searching Play N Read in our catalog.

# Family STEAM Night

S A T U R D A Y  
MARCH 19 6-8 PM

Celebrate all things STEAM with a night full of activities for the whole family at the Carrico/Fort Thomas Branch.

There will be several regional presenters, including the Cincinnati Observatory, NKU Chemistry Department, Cincinnati Museum Center, Neusole Glassworks and Newport Aquarium. The latter will have penguins in tow, which guests can meet on a first-come, first-served basis across two sessions at 6 and 6:30 pm. STEAM-themed crafts and activities will also be available. Registration is not required.

# Consumer Health Complete

Find easy-to-understand information about health-related topics with Consumer Health Complete, a database that covers all key areas of health and wellness,

from mainstream medicine to the many perspectives of complementary and holistic medicine.

Meant for consumers, materials include videos, articles, magazines, drug and herb information, a medical dictionary, recent news and more. The database is free to access with your library card. Visit [www.cc-pl.org/consumer-health](http://www.cc-pl.org/consumer-health) for more information.

## LOOKING AHEAD

### Signature Series: Author Karen Abbott

True crime enthusiasts, this one is for you. Bestselling author Karen Abbott will join the Carrico/Fort Thomas Branch at 7 pm Friday, April 22 to discuss her 2019 book *The Ghosts of Eden Park*. Set in Cincinnati during Prohibition, the real-life story follows George Remus, aka the "King of the Bootleggers," through tales of Gatsby-esque parties, FBI investigations, an affair and murder. A book signing and a short reception will follow the lecture. Free tickets are required and can be requested at [www.cc-pl.org/signature-series](http://www.cc-pl.org/signature-series).

### ADA Compliance Statement

The Library makes every reasonable effort to provide equal access to all patrons. Please contact [access@cc-pl.org](mailto:access@cc-pl.org) or call ext. 8 at your local branch at least 72 hours prior to an event to arrange for accommodation. All facilities and meeting rooms are ADA compliant.
